Subject: Contact for asbestos removal

Hi Rod,

We had to re-clad our Hangar at Jandakot last year and the contractors who did the work were the Roof & Wall Doctor, principal Kevin Croon. They have a Class 3 demolition licence and are very proficient at completing Work Safe plans and ensuring that they comply with all health and safety regulations. They work quickly and effectively and within budget. I have now used them for a second time to re-roof our second Hangar at Jandakot.

Their contact details are as follows:

Ph: 9430 6553
Mob: 0418 931 409
Address:

16 Essex St
Fremantle WA 6160

Email: cityfree@inet.net.au

Kind regards,

Liane
