Mr Kevin Croon
The Roof & Wall Doctor
16 Essex Street
FREMANTLE WA 6160

Dear Kevin

RE: GWAMBYGINE HOMESTEAD

At the meeting on site on Wednesday 31 March, your team completed the work of your contract.

I and the Gwambygine team, are all impressed with the end result. Congratulations and thank you for a splendid job well done.

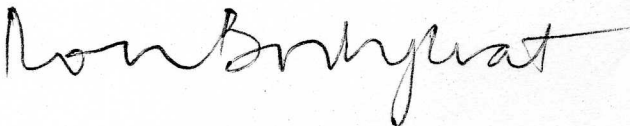

Let me have your invoice, made out to RIVER CONSERVATION SOCIETY INC. including the extra items along the way.

Two additional items were requested and discussed with your man on site:

- replace the corrugated galvanised iron roof sheeting on the toilet, using old sheeting removed from the main roof;
- nail down the springhead fixings on the garage roof and maybe replace the corroded ridge flashing, using salvaged material if still available.

These two extra items are to be carried out in a couple of weeks, about 12 April, when your team is available to return to site.

Regards

RONALD BODYCOAT
Heritage Architect
